

# Strategic Plan for Behavioral Health 2020 – 2024

Develop a comprehensive plan for behavioral health services in our region designed to empower members to live, work, and thrive in their communities.

Population Assessment	Workforce & Provider Network	Delivery System	Financing & Payment Models	Leadership and Accountability
<p>Design delivery system to meet the needs of population</p>	<p>Support provider network to achieve mental health parity and health equity for members</p>	<p>Provide access to full array of services, that are responsive to member needs, including focus on OHA identified special populations</p>	<p>Implement financing models, including Value Based Payments to advance quality, evidence-based practice and integration</p>	<p>Establish system oversight and accountability</p>
<ul style="list-style-type: none"> <li>Combine disparate data sources, including SDoH to provide a comprehensive view of member needs</li> <li>Assess population needs through robust tools and analytics</li> <li>Develop prevalence reports</li> <li>Identify subpopulations – e.g., SUD/SMI – Pregnancy and 0-5 yrs., develop cohorts</li> <li>Identify service needs based on prevalence of conditions</li> <li>Standardized screening and assessments</li> </ul>	<ul style="list-style-type: none"> <li>Catalogue the current provider network, include detail on capacity and diversity of workforce to ensure parity with members</li> <li>Develop strategy to address gaps and increase available workforce</li> <li>Partner with local and state resources on workforce development initiatives</li> <li>Ensure workforce receives cultural responsiveness training and trauma informed care principles</li> </ul>	<ul style="list-style-type: none"> <li>Alignment, quality improvement and integration through PCPCH/BHCH model</li> <li>Provide effective coordination of multiple services and supports</li> <li>Culturally-responsive care pathways and handoffs structured and supported</li> <li>Seamless referral and access pathways</li> <li>Prioritized access for special populations</li> <li>Specialized services – e.g., ACT, Wraparound</li> <li>Ongoing member, family and community engagement and feedback</li> </ul>	<ul style="list-style-type: none"> <li>Advance APMs that increase provision of services and supports</li> <li>Evaluate BH spend and risk sharing</li> <li>Align payment and incentives for screening, early identification, early intervention, and recovery supports</li> <li>Risk sharing agreements across providers</li> <li>Design and implement risk-sharing arrangement with Oregon State Hospital</li> </ul>	<ul style="list-style-type: none"> <li>Establish clear roles and accountability</li> <li>Define data and tools necessary for operations, care coordination, VBP, and population health</li> <li>Define accountability standards across provider types and network</li> <li>Refine outcome-based system management</li> <li>Streamline regulatory reporting</li> <li>Develop oversight strategy for IHN and sub contractors, LMHA</li> <li>Standardize care pathways</li> </ul>
